Objective

B.Tech Computer Science and Engineering graduate with hands-on project experience and strong analytical, problem-solving, and programming skills. Possess a keen interest in web development and app development. Passionate about technology, leadership, and creating a positive social impact.

Education

- **MGM Technological Campus Valanchery, APJ Abdhul Kalam Technological University**
Bachelor of Technology in Computer Science and Engineering 2022-Present
CGPA:7.35/10
- **XII Science** 2020-2022
MES HSS Irimbilyam, Kerala Board of Higher Secondary Education
Percentage :93%
- **X Class** 2019-2020
Majilis Hss Venghad,Kerala Board of Public Examination
Percentage:99%

Projects

- **Aqua Trace- Water Quality Monitoring and Management System**
Developed an AI-based water quality monitoring application using machine learning to analyze contamination patterns, predict filter lifespan, and provide real-time water quality insights through mobile and web platforms.
Result: Improved unsafe water detection accuracy and supported faster preventive actions.
- **Note Gallery – a digital notebook for teachers and students.**
Technologies: Firebase, HTML, CSS, JavaScript, Bootstrap, Python, Django, SQLite.
Designed a centralized platform for teachers to upload and manage notes, allowing students to access educational resources anywhere at anytime. The sole purpose is to streamline sharing academic materials and enhance collaboration.
Result: Improved access and reduced paperwork, with well-organized records available to learners anytime.

Technical Skills

- Programming languages: C,C++,Python,Java(Basic),HTML,Flutter.
- Databases:MySQL,SQLite,Firebase
- Core Knowledge:Data Structure,Operating System,Database Management

Soft Skills

- Communication,Team Collaboration,Problem Solving,Critical Thinking,Time Management,Adaptability,Leadership Potential,Interpersonal skills.

Language

- Malayalam
- English

Certifications

- Flutter App Developmen
Pacelab, Kochi | 2024
